

## **Webservant Report NASCONA December 1, 2013**

Our web site is doing great. We are still getting a good traffic count on our site. If you do a Google search for Texas Narcotics Anonymous NASCONA is in the first 2 pages now. We are starting to move up in the search engine rankings. This is probably due to the fact of the age and traffic on our website.

These past few months have been really hectic due to a sick mother and a death in the family. However, I am keeping the website up to date to the best of my ability. I would hope that someone will at least step up as co chair of our website. I could really use the help at times.

I do want to remind everyone that this is our website and I take direction from this service body. What I am saying is that if you want something on the website and/or your group page, tell me and I will do it. By the way, New Attitudes Group is on the second page of Google's search engine under Texas Narcotics Anonymous this month.

In Loving & Selfless Service,

Bob T.
